

Transportation Equity & Inclusion

Anthony Lanzilotti | Rail Passengers Association

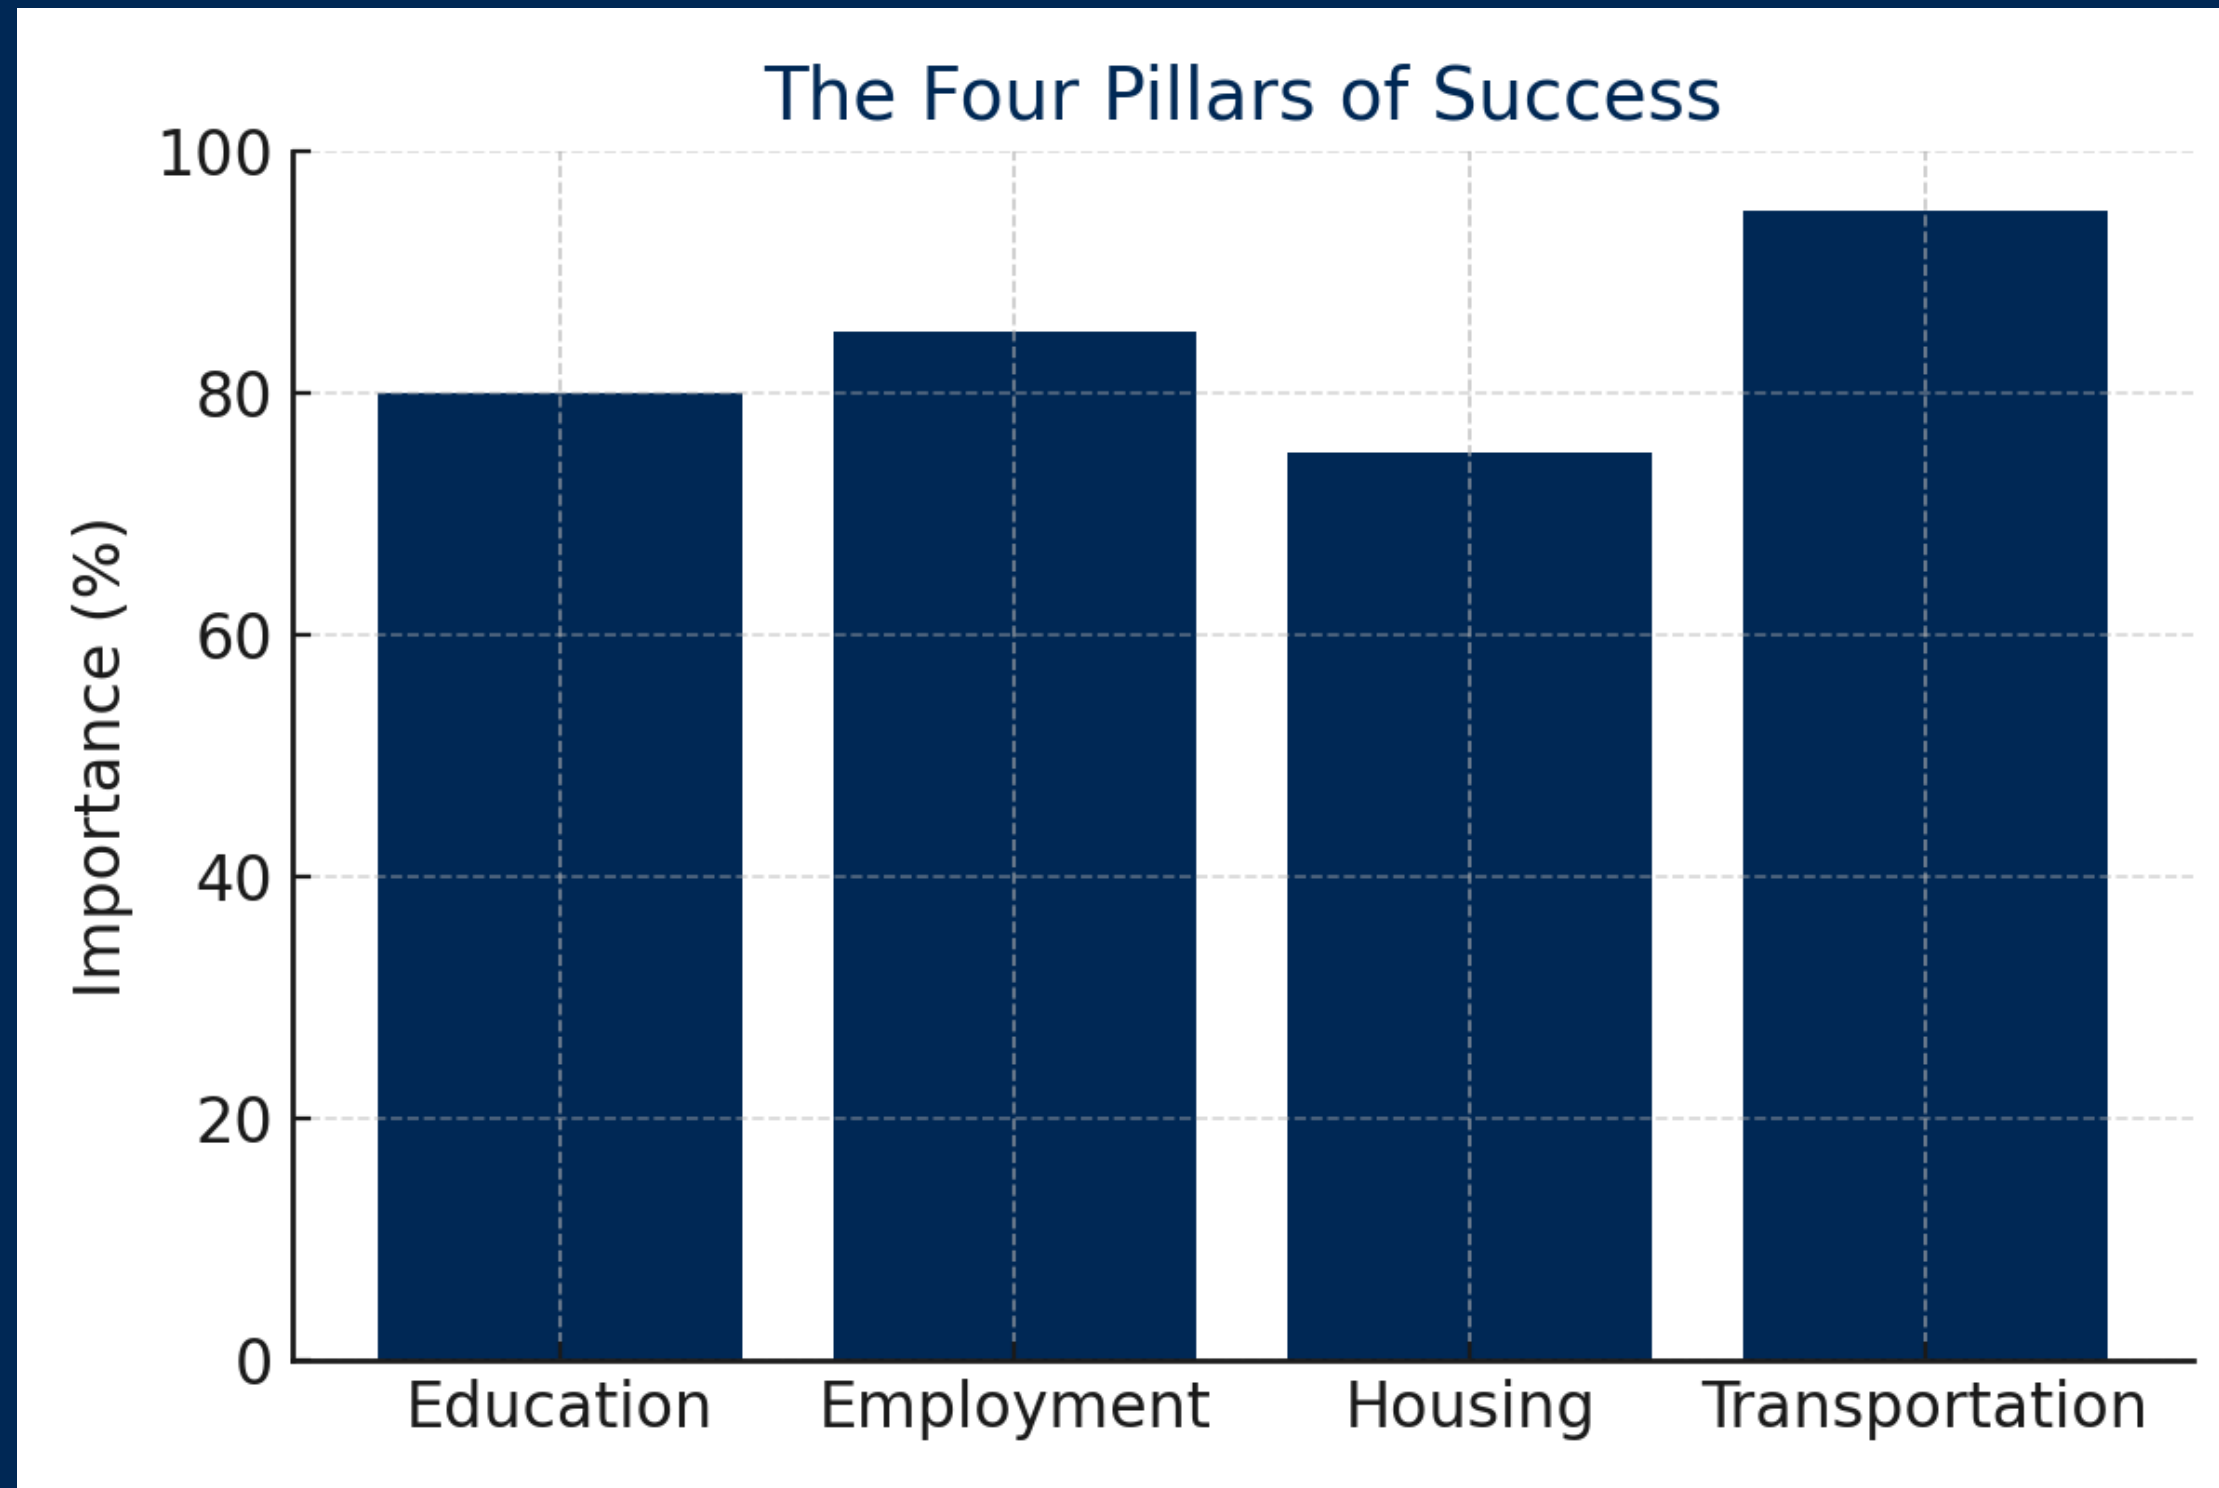

All Aboard Washington

December 14, 2024

Defining Success in America

- **Education:** Access to schools and opportunities begins with reliable transit.
- **Employment:** Transportation connects people to jobs and opportunities.
- **Housing:** Affordable housing often lacks access to public transit.
- **Transportation:** The system that ties everything together.

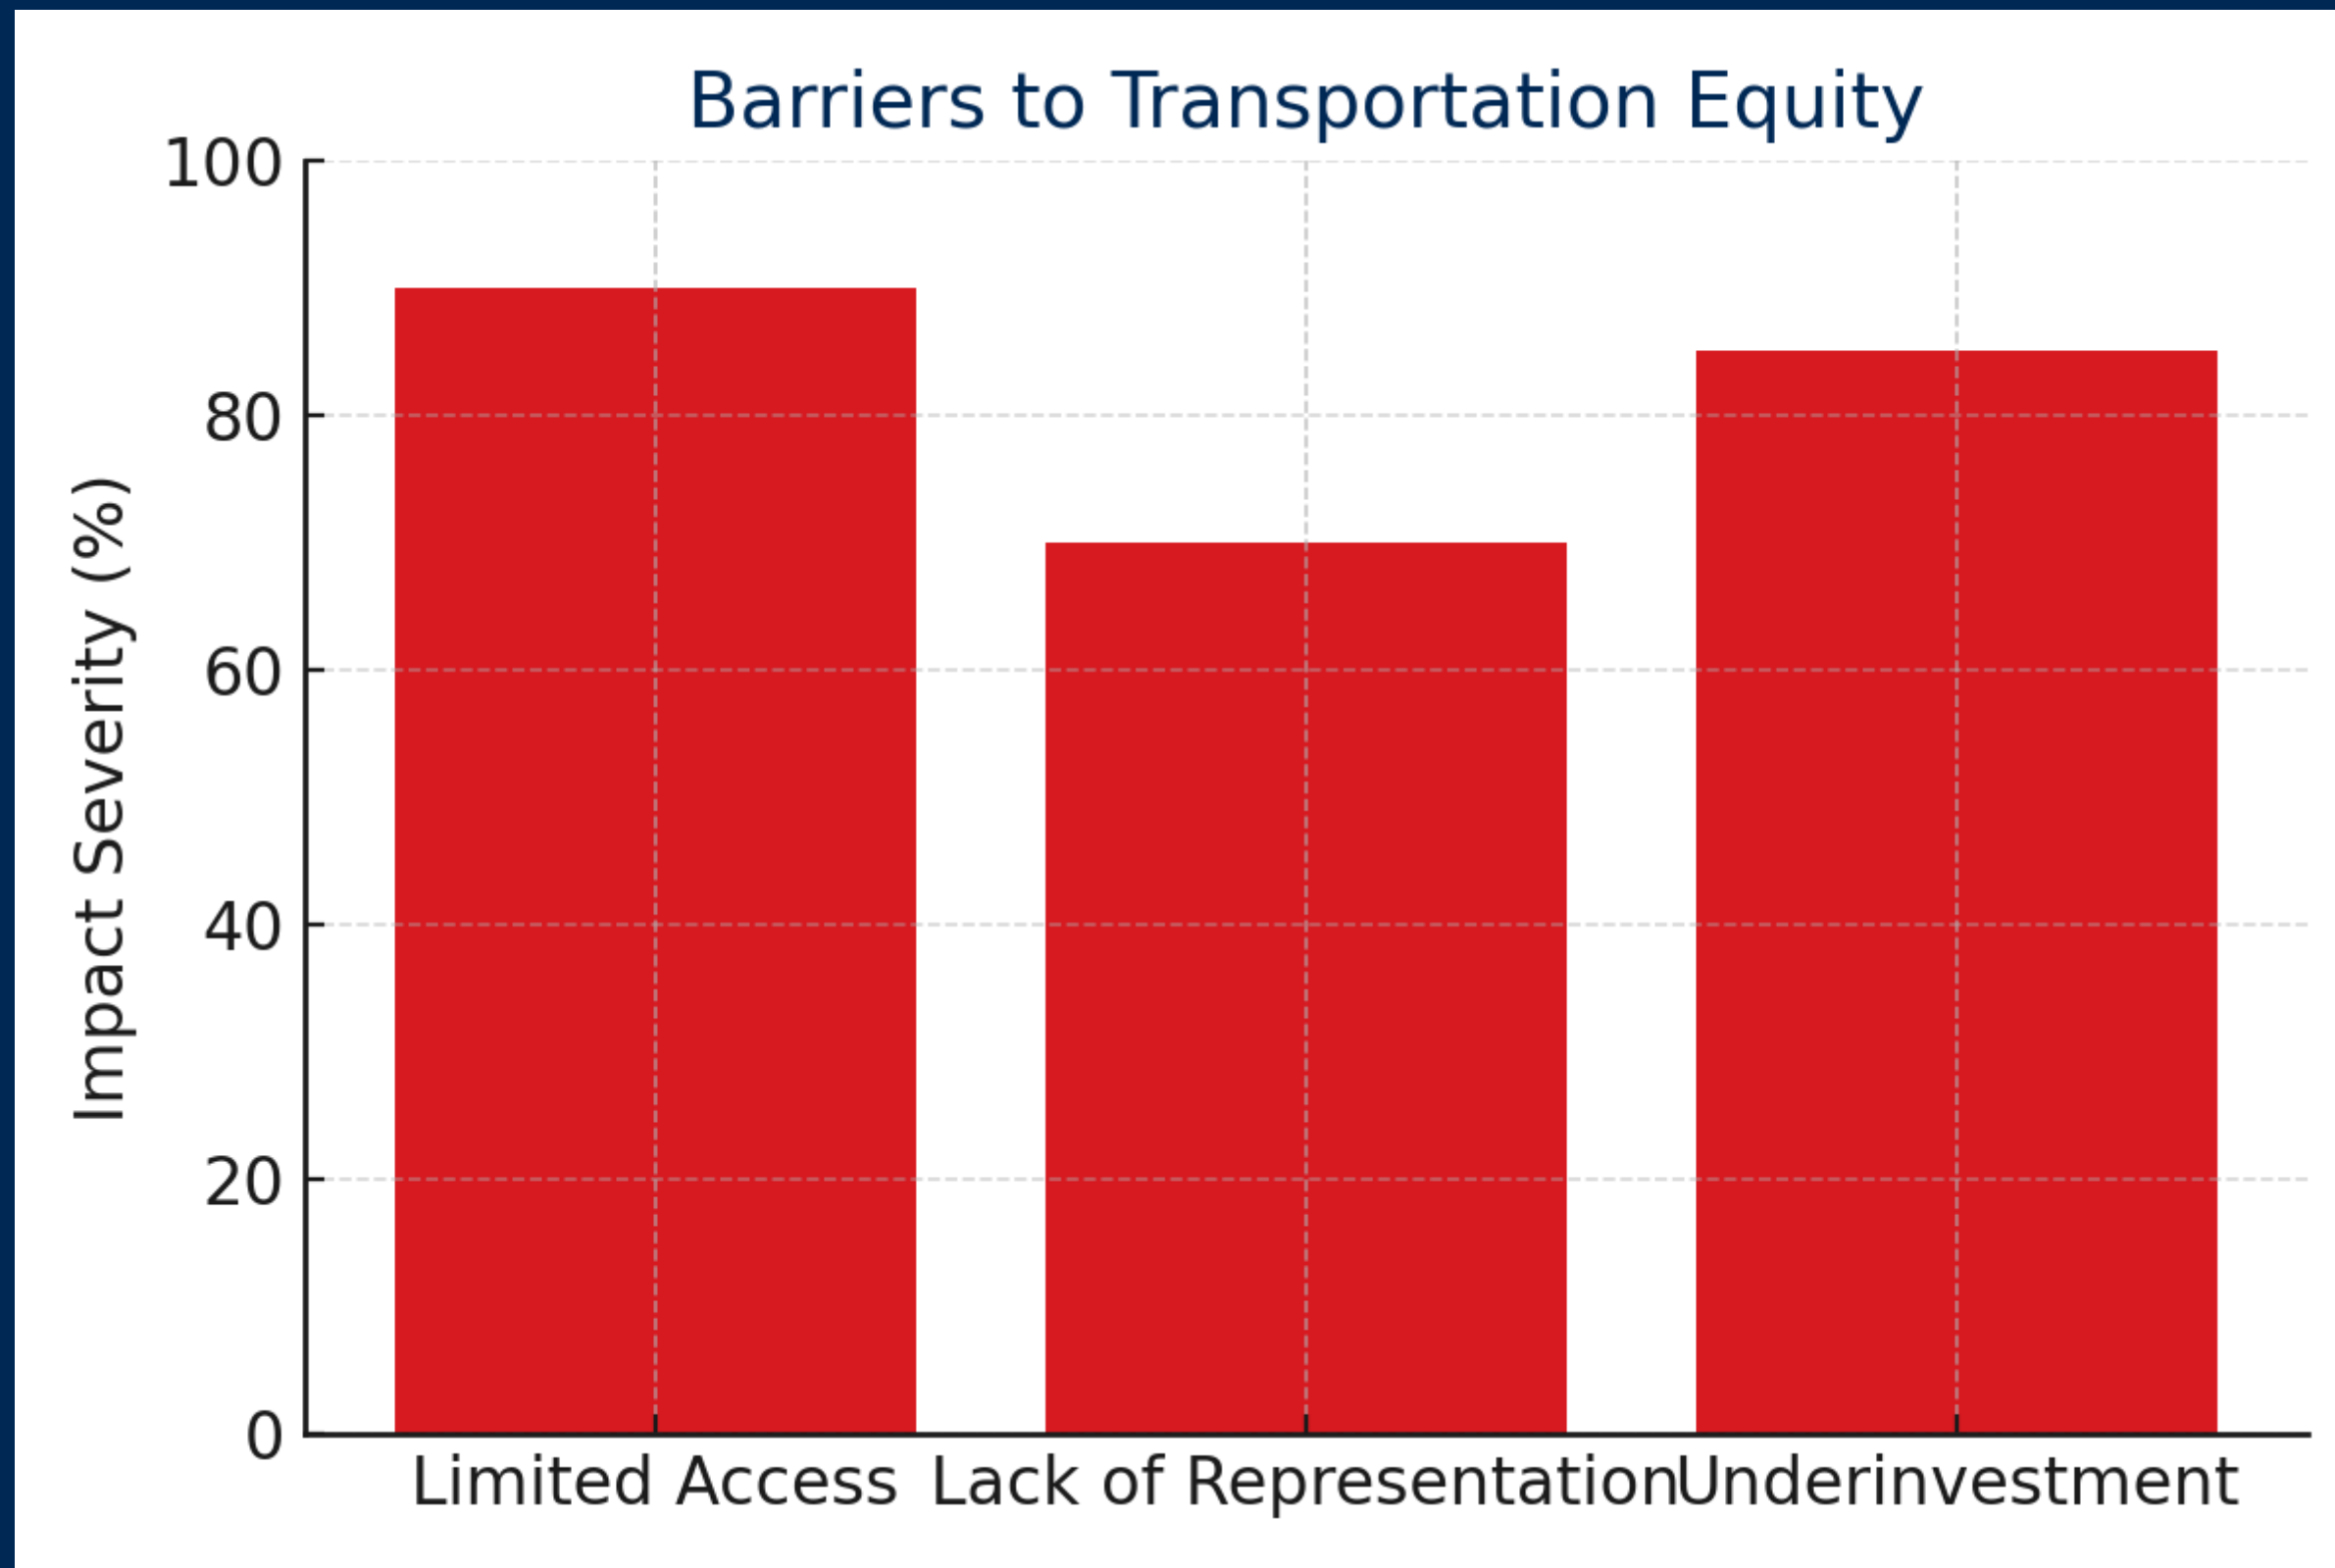

The Four Pillars of Success

Barriers for Americans with Disabilities

- **Limited Access:** Inaccessible stations and unreliable services.
- **Lack of Representation:** Policies are made without input from the disabled community.
- **Underinvestment:** Public transit funding leaves rural areas stranded.

Barriers to Transportation Equity

Call to Action

- “Transportation is about **freedom** - The freedom to move, connect, and succeed.”
- “Fight like hell for equitable, sustainable, and accessible transportation.”
- “**Equity** in transportation is not a luxury. It is a right.”
